What is SCALE-UP?

Mentimeter

Not a lot

No idea

Nothing

Not much

Teaching tool for engagement

I'm here because I know nothing about it. I may be familiar with the principles.

Flipped learning with group work in session

'Flipped learning'

Computer-assisted teaching and learning.

33

What is SCALE-UP?

Mentimeter

Not much.

zero knowledge

It is more interactive than lectures

Student-centres activity based learning.

Active collaborative learning

Flipped learning students in teams

Learner Focused/Driven

Small groups working on a task supported by tutor (using IT)

Active learning, students collaborating, need a flexible teaching space (which we don't have!), ideally access to laptops, utilising elements of flipped learning.

33

What is SCALE-UP?

Mentimeter

Group work, collaborative learning. Flipped learning.

An innovative method of engaging students in active , experiential learning. It's not about a lecturer standing at the front it's about co production

Flip learning, engage learner before any lecture

Group work, facilitating rather than lecturing, pre work required

It is a type of group learning seminar in which the students lead the learning

Student driven work

interactive learning style collaborative

Students use computers! work is set beforehand. Lecturer not the 'sage on the stage' at the front. and you need to be trained before they let you get your mucky hands on the kit...

Mixing up the learning experience for higher engagement

33

What is SCALE-UP?

Mentimeter

Group based learning. Focus away from the tutor.

Active learning

Student centred active learning environment with upside down pedagologies

No idea

Student-Centred Active Learning Environment with Upside-down Pedagogies

Develop self management/ communication and confidence

Mentimeter

Approach

- Enquiry/problem based approach.
- Flipped learning.
- Collaborative learning.

Design: Planning

- Constructive alignment.
- Students teach peers.
- Problem solving framework.

Design: Activity

- Few or no lectures.
- Content chunking and SCALE-UP question types (i.e. tangibles, ponderables, visibles).
- Incorporated reflection on team working.

Practice

- Strategic group formation.
- Specific group roles.
- Individual and team accountability.

Mentimeter

Components - 15 minutes

- Work in groups of 3.
- Assign roles using the handout, groups of 3 or 4.
- Develop a summary of the assigned components.

1 2

Mentimeter

Share ideas - 10 minutes

- Share your findings with the other group(s) on your table.
- How does SCALE-UP support learners in different 'spaces'?
- e.g. home, education, family, self-care, travelling, community?

How does SCALE-UP support learners in different 'spaces'? e.g home, education, self-care, community.

Mentimeter

Develops resilient agency in learners

Improving communication and debating skills to ease tensions with family/at home.

Employability skills - negotiation, team work, critical reflection! All ACE 😄

Confidence building

Developing communication skills

Taking on different roles (organiser; scribe; questioner etc) could be useful in a work environment - to understand how teams work... and take on those roles

Prepare them for functioning in employment

Promotes importance of effective communication with peers and in day to life.

Develops soft skills

12

How does SCALE-UP support learners in different 'spaces'? e.g home, education, self-care, community.

Mentimeter

emphasises the importance/benefits of active participation (in all aspects of life)

Perhaps encouraging them to push themselves to try and engage with new situations or familiar situations in a different way

Learn means of finding self-worth through sharing ideas with others and being empowered.
