

Collaborative Online International Learning (COIL)- The future for effective international learning opportunities?

Dr Preethi Premkumar &

Dr Glenn Williams

School of Social Sciences,
Psychology

Collaborative Online International Learning (COIL)

- Online digital technology and social media promotes distant teaching and learning, and knowledge exchange between students from different countries
- Learning is achieved through social construction (Vygotsky, 1978, Cochrane et al., 2013)
- Promotes equal opportunities and access to a larger number of students
- Become proficient in intercultural exchanges and using technologies to communicate in geographically distributed networks of people
- Not time bound:
 - The dialogue can continue over an extended period of time, especially if there are large time differences between the two countries (Lee & Markay, 2014)

Intercultural competence

- Defined as 'the ability to communicate effectively and appropriately in intercultural situations based on one's intercultural knowledge, skills, and attitudes' (Deardorff, 2006)
- Goals of intercultural competence (Vilar-Onrubia & Rajpal, 2016)
 - Respect
 - 'valuing of others'
 - Self-awareness/identity
 - 'understanding the lens through which we each view the world'
 - Seeing from other perspectives/world views
 - 'both how these perspectives are similar and different'

Aims

- To build intercultural competence among Psychology students through collaborative online international learning
- To create a collaborative learning community where the students co-construct meaning using task-based activities
- To build a social media community of practice (CoP) of Psychology teaching staff at the collaborating academic institutions interested in transforming pedagogy

Method

- Psychology teaching staff at NTU and University of Madras formed a social media community of practice (CoP) (Cochrane et al., 2013)
 - Considerable overlap in curriculum between British and Indian Psychology courses
 - The topic for discussion was family dynamics
 - A website was created on PbWorks to guide students on preparing for the OIL session, and to set the agenda for the OIL session

Website on Agenda for the OIL session

Welcome to the Nottingham Trent University Psychology Online International Learning (OIL) forum

Thank you for joining this activity!

The aim of this session is to build your knowledge of psychology from a global perspective. An international curriculum allows 'all students to prepare them for living and working in an internationalised, multicultural world' (Clifford, 2009). In this session, you will exchange knowledge about family communication with an English or Indian student who you are paired with. A family is 'a group of two people or more (one of whom is the householder), related by birth, marriage, or adoption and residing together'. Consider how you might understand how two diverse cultures, England and India, differ in their family communication. The session aims to increase your global awareness of psychology. We hope you will enjoy this session. We hope that this social exchange will create new opportunities and international friends for you.

This is an activity being organised by Dr Preethi Premkumar, Senior Lecturer in Psychology, Nottingham Trent University, Nottingham, U.K. If you have any questions about this activity, please contact me on preethi.premkumar@ntu.ac.uk.

As a 'thank you', we would like to use your discussions as a source of evidence for a possible publication in an academic journal. And so, we may contact you to ask whether you want to be a co-author of that article.

Respecting and valuing each others' views is at the heart of shared understanding

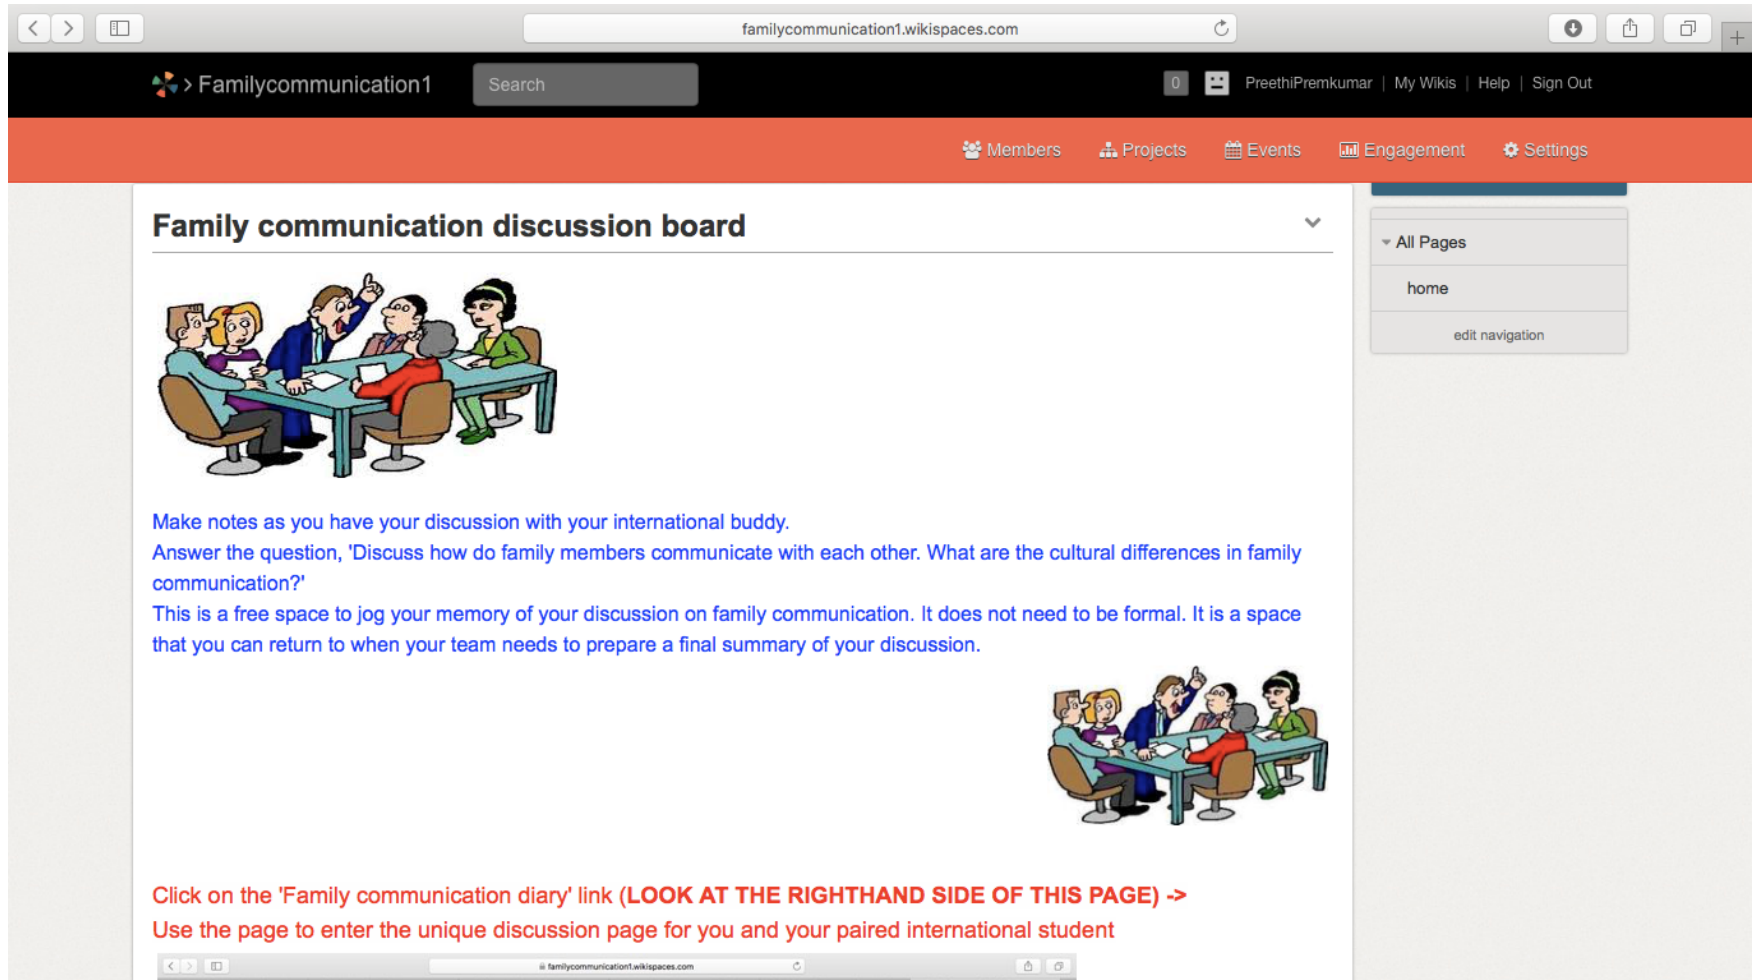

Preparation for the Online International Learning (OIL) session

Do the following activities BEFORE you attend the session:

1. Create a Skype account: <https://login.skype.com/login>
2. Create a Wikispaces account: <http://www.wikispaces.com>
 - i. Confirm your email account
 - a. Check your junk email, Subject title 'Please confirm your email address'
 - b. Click on the link in the email, beginning <https://www.wikispaces.com/>
 - ii. Accept invitation to 'Familycommunication1'
 - a. Check your junk email for this invitation
 - b. Check your email for subject titled 'You have been invited to the

Wikispaces to promote student discussion

The screenshot shows a web browser window displaying a Wikispaces page. The address bar shows 'familycommunication1.wikispaces.com'. The page has a dark header with the site name 'Familycommunication1', a search bar, and user information 'PreethiPremkumar | My Wikis | Help | Sign Out'. Below the header is an orange navigation bar with links for 'Members', 'Projects', 'Events', 'Engagement', and 'Settings'. The main content area is titled 'Family communication discussion board' and features a cartoon illustration of five people sitting around a table, engaged in a discussion. Below the illustration, there is a blue text block with instructions: 'Make notes as you have your discussion with your international buddy. Answer the question, 'Discuss how do family members communicate with each other. What are the cultural differences in family communication?'' This is followed by a paragraph explaining that the space is for jotting down discussion points and returning to them later. To the right of the main content is a sidebar with a 'All Pages' dropdown menu showing 'home' and 'edit navigation'. At the bottom of the page, there is a red text block instructing users to click on the 'Family communication diary' link (located on the right side of the page) to enter a unique discussion page. A small version of the cartoon illustration is also present at the bottom right of the main content area.

Members Projects Events Engagement Settings

Family communication discussion board

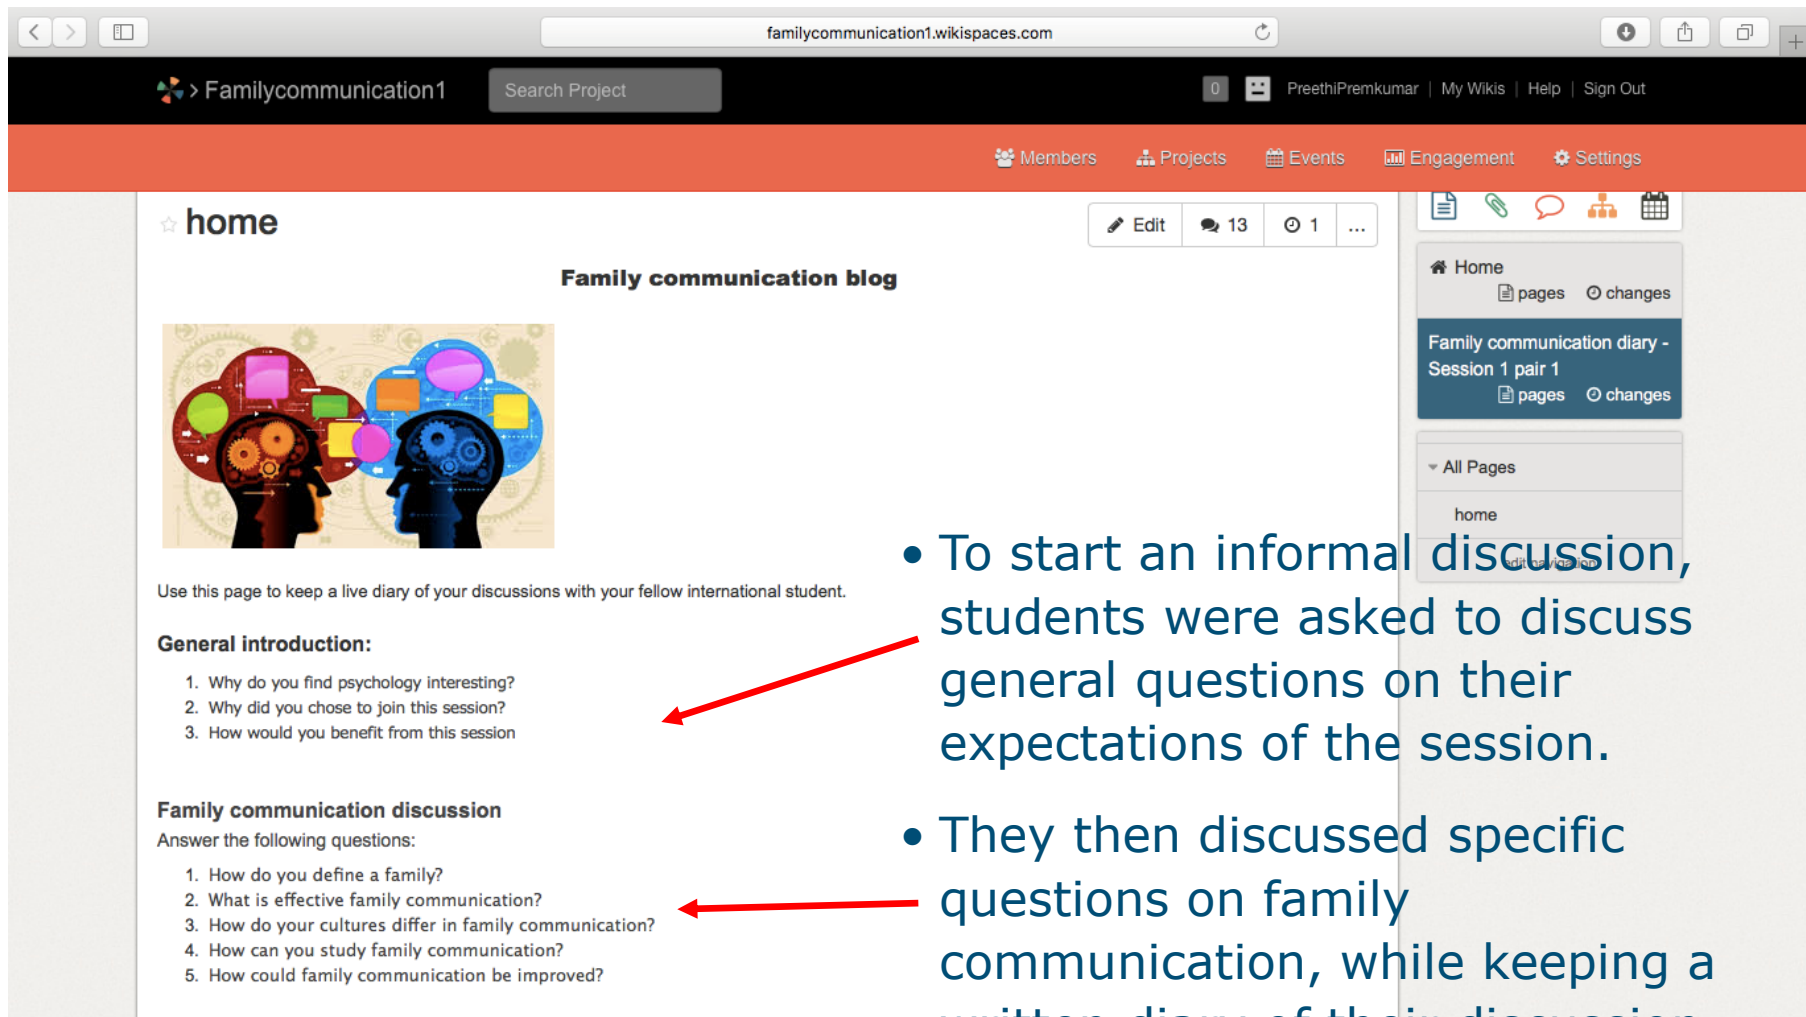

Make notes as you have your discussion with your international buddy.
Answer the question, 'Discuss how do family members communicate with each other. What are the cultural differences in family communication?'

This is a free space to jog your memory of your discussion on family communication. It does not need to be formal. It is a space that you can return to when your team needs to prepare a final summary of your discussion.

Click on the 'Family communication diary' link (**LOOK AT THE RIGHTHAND SIDE OF THIS PAGE**) ->
Use the page to enter the unique discussion page for you and your paired international student

Questions for discussion

The screenshot shows a web browser displaying a Wikispaces page for 'familycommunication1.wikispaces.com'. The page has a header with navigation links like 'Members', 'Projects', 'Events', 'Engagement', and 'Settings'. The main content area is titled 'Family communication blog' and features an illustration of two stylized heads with gears and colorful shapes inside, representing communication. Below the illustration, there is a text prompt: 'Use this page to keep a live diary of your discussions with your fellow international student.' The page is divided into two sections: 'General introduction:' and 'Family communication discussion'. The 'General introduction:' section contains three numbered questions. The 'Family communication discussion' section contains five numbered questions. Two red arrows point from the text on the right to the first and fourth questions in the 'Family communication discussion' section.

home

Family communication blog

Use this page to keep a live diary of your discussions with your fellow international student.

General introduction:

1. Why do you find psychology interesting?
2. Why did you chose to join this session?
3. How would you benefit from this session

Family communication discussion

Answer the following questions:

1. How do you define a family?
2. What is effective family communication?
3. How do your cultures differ in family communication?
4. How can you study family communication?
5. How could family communication be improved?

- To start an informal discussion, students were asked to discuss general questions on their expectations of the session.
- They then discussed specific questions on family communication, while keeping a written diary of their discussion

ACE week COIL events

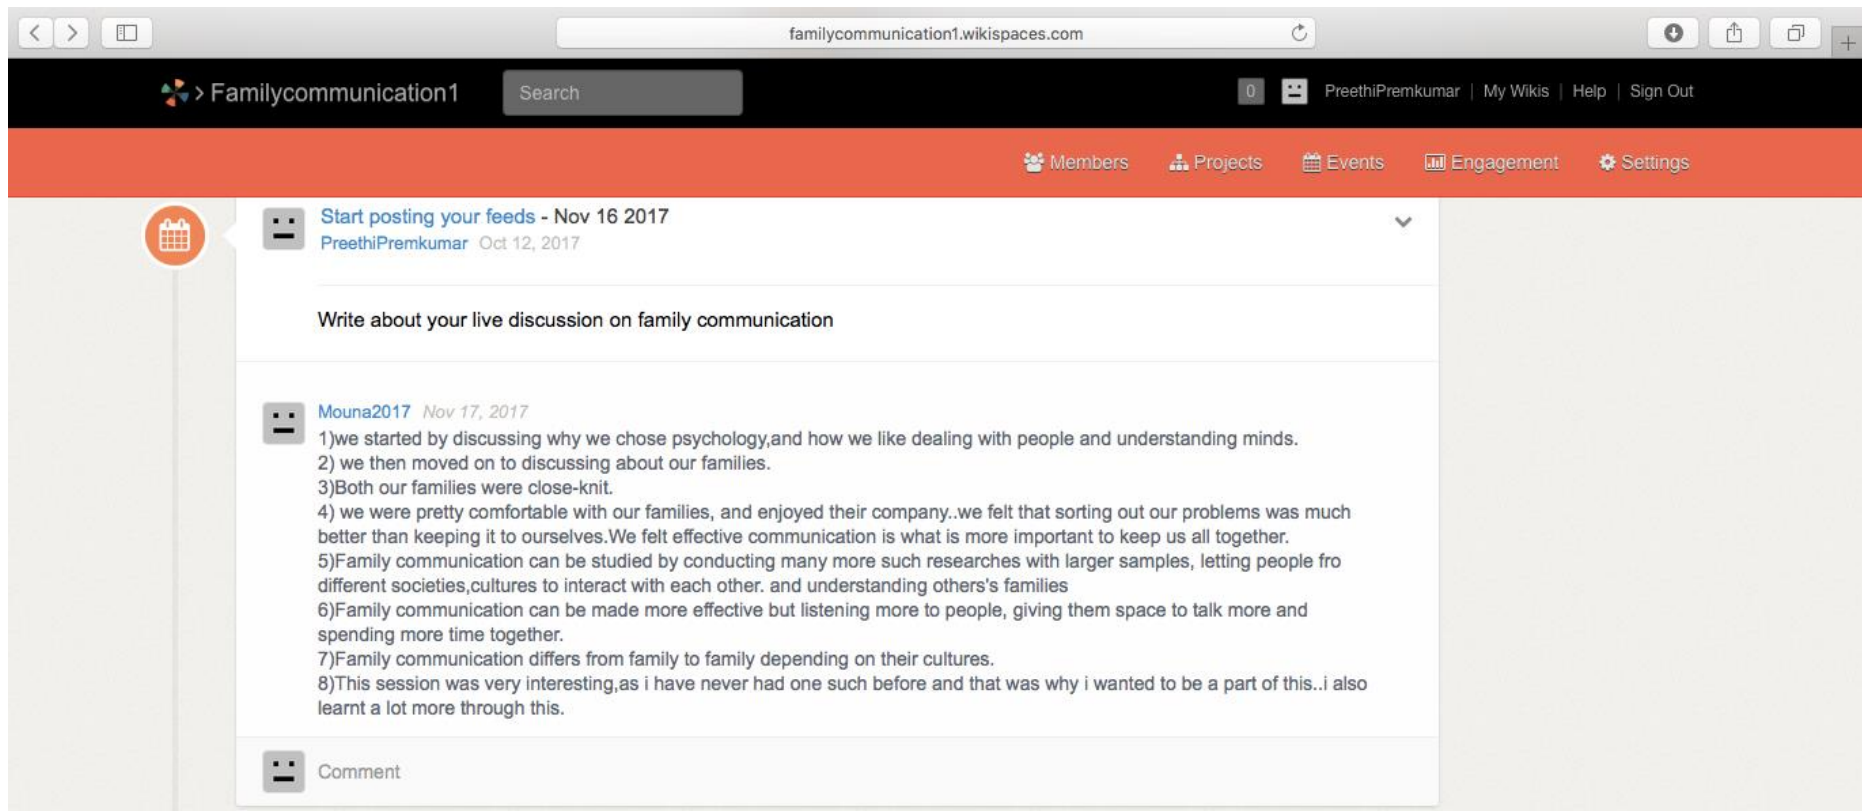

- Two COIL events were held during ACE week in 2017
- Each session lasted two hours
- Five NTU psychology students and five Stella Maris College (University of Madras, India) psychology students signed up to the events
- Each NTU student was paired with an SMC student

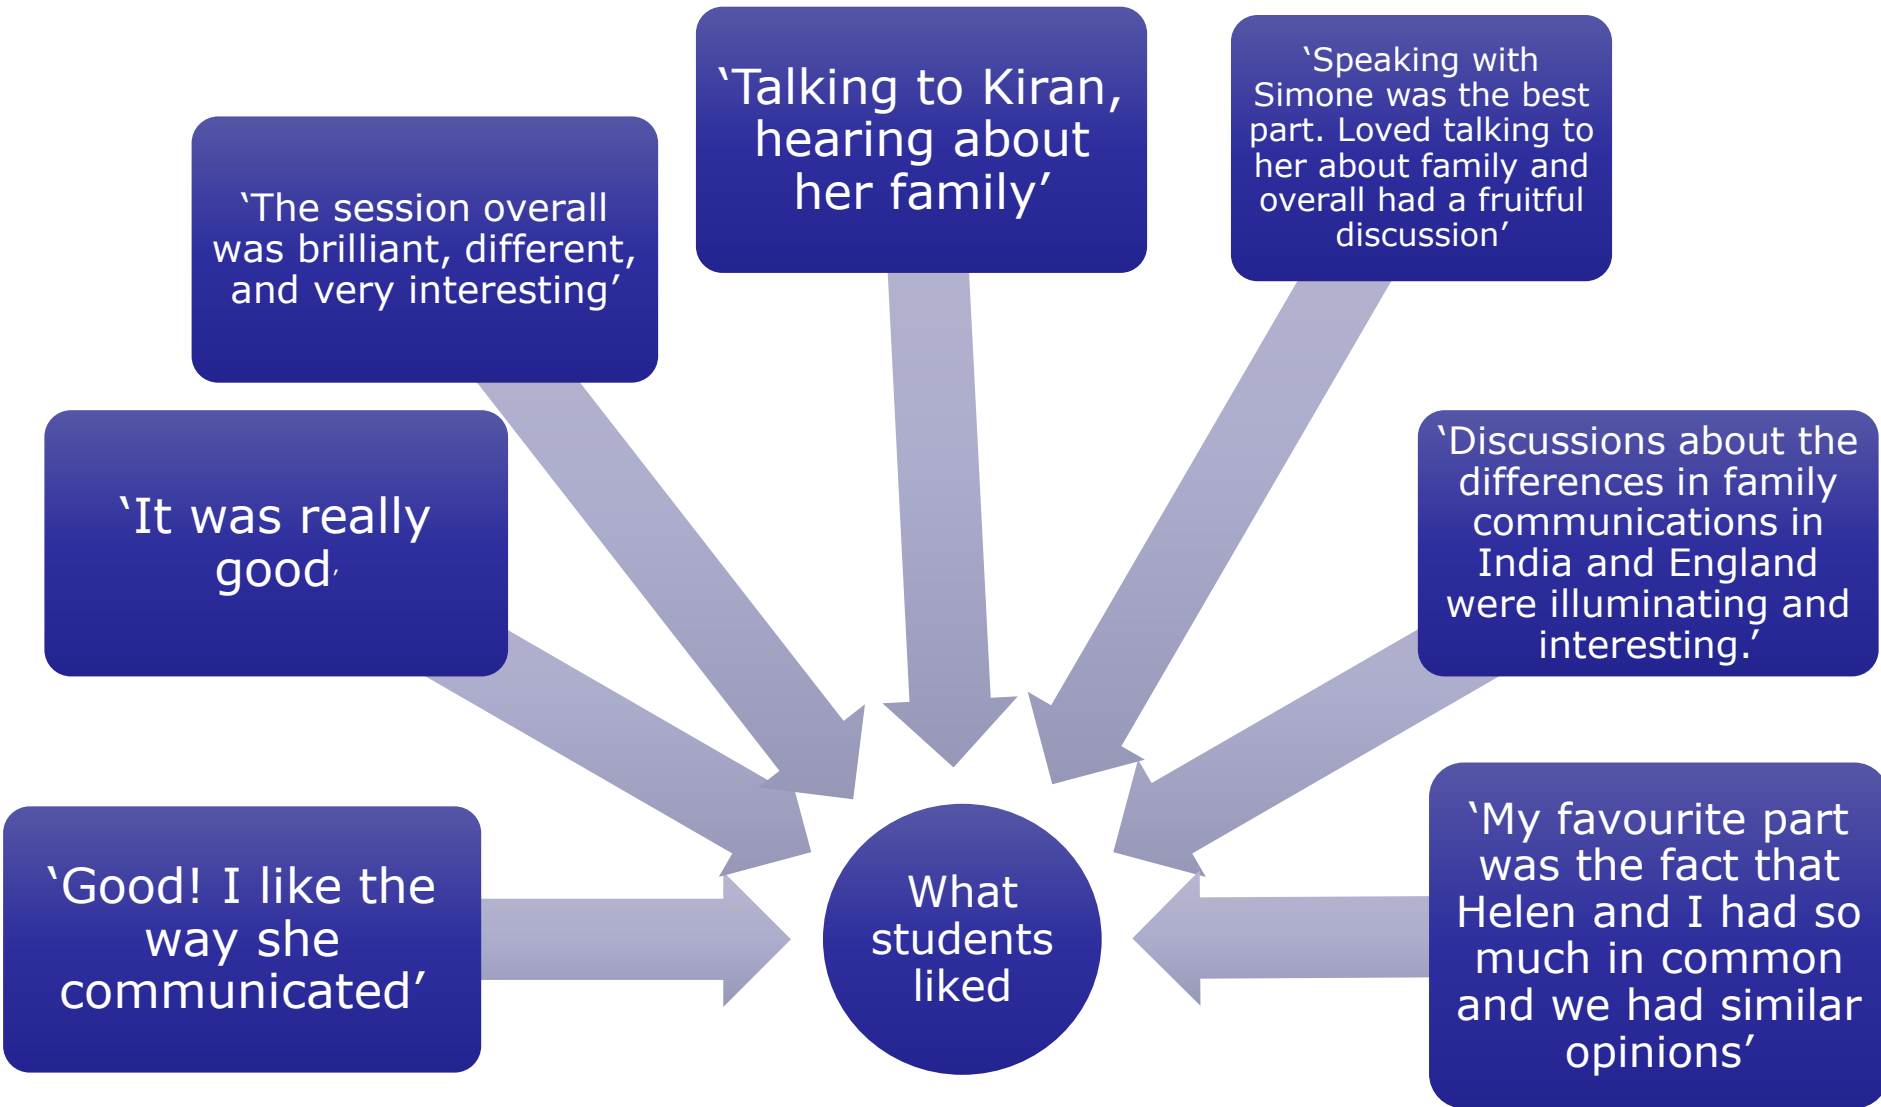

Student from Stella Maris College, India

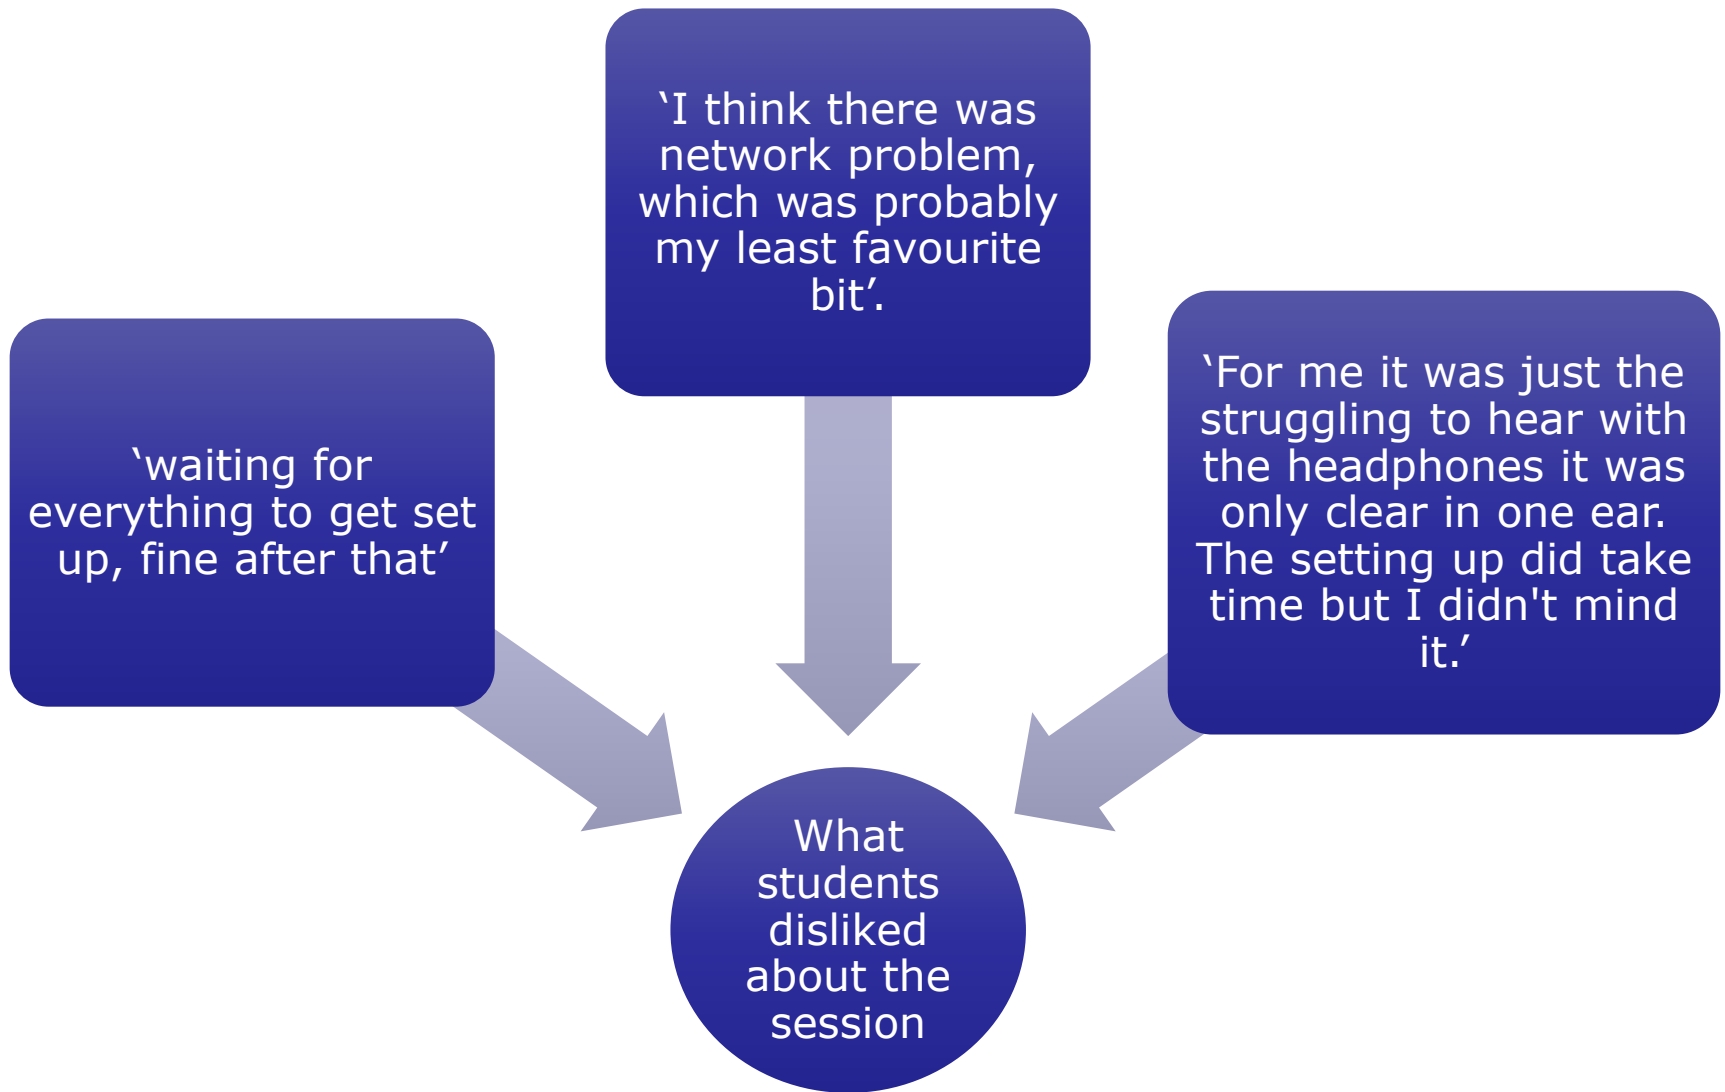

ACE week COIL events

- Student registered to the Wikispaces account
- Student pairs assigned to chat spaces within the Wikispace
- Students maintained a written diary of their online communication

Challenges to virtual intercultural exchange

- **Formative or summative assessment** (Villar-Onrubia & Rajpal, 2016)
 - Formative – less likely to engage, other priorities may take over
 - When COIL activities were perceived as 'bolt-on' exercises by students, the activities were viewed as 'additional work'.
 - Need to align to summative assessment
- Access to certain online services (e.g. Facebook, Google Docs) may be limited in certain countries (e.g. China)

Challenges to virtual intercultural exchange

- **Requirements** (Vilar-Onrubia & Rajpal, 2016)
 - Students must engage in some sort of online dialogic interaction with international peers on discipline content
 - Collaborative activities must be informed by internationalised learning outcomes
 - A reflective component (e.g. essay, focus group) that helps students make explicit the learning resulting from engaging in such intercultural encounters.
 - Demonstrate critical thinking
- **Develop criteria to summatively assess the student activity in the online exchange**

Questions for Discussion

- Does it seem worthwhile to put into practice on your courses?
- What modules could it be included in with your courses? Can it be added on or part of an existing module?
- What are the implications for assessment? What type of summative assessment is amenable with this type of teaching and learning approach?
- How else do you envisage the online international learning activity taking place?
- What kinds of online resources might you need to make this happen?
