School of Architecture, Design and the Built Environment

Work Submissions

MA Interior Architecture and Design

Your submission is an opportunity to showcase your work.

In order for NTU to consider your application, you are required to submit at least 12 examples of your practical work.

You should include a range of work that supports your application and shows your understanding of your specialist area of study.

You are asked to submit a portfolio of work with your online application. This should include:

- At least 12 examples of work which show your architectural and technological work
- Any other work which demonstrates your visual interests
- At least 5 slides on sketchbook or personal work.

Work can be in the form of images, photographs, drawings or other media, with dates and descriptions of why the projects were undertaken.

Please submit your practical work as a Microsoft PowerPoint and/or Apple QuickTime presentation. It should be:

- as many slides as necessary to allow you to include more than one image of each piece of work, if required, plus short descriptions
- submitted as a single unzipped file not exceeding 10mb (megabytes)
- and saved as a PowerPoint file (with a file extension of .ppt NOT .pptx).

NOTE: where images are inserted into a PowerPoint presentation they must be:

- in JPEG format; and
- a maximum of 72 dpi (dots per inch).

What will happen next?

The details of your application form and portfolio will be carefully considered when assessing your application. We will use these to look for evidence of your creativity, innovation, intellectual engagement and your technical skills.

We will aim to inform you of a decision within 20 working days of receiving your completed application.

An electronic copy of all submitted work will be retained by NTU for the duration of the annual application cycle, but will not be held on file for longer than this. Please ensure that all files sent to us are copies.

NTU will not use submitted work for any purpose other than the student application process.
