

Printer/Toner Cartridge Recycling

Most printer and toner cartridges can be recycled via Digital Technologies. If DT already change the toner on your printer for you, they will take empty cartridges away with them.

There are also drop off points for cartridges from other printers and copiers. These are in the following locations:

- Brackenhurst – Outside DT office/workshop, behind Main Hall
- City – 64 Terrace Royal Basement (DT offices). Either drop off or send via internal mail marked up 'Toner Recycling'
- Clifton – Catalysis Research Centre (DT offices). Either drop off or send via internal mail marked up 'Toner Recycling'

Contact Chris Gration for more details.
