Showing your portfolio is an opportunity for you to showcase your skills, personality and potential. It should be a collection of your work that demonstrates how you and your creativity have developed. It's also an opportunity to make sure we have the right expertise and resource to support you during your time at university.

We understand your portfolio will be unique to you, but here's a handy checklist of things you should consider when preparing your portfolio.

Approximately 15-20 pieces of work. Be selective, showcasing the pieces of work which you feel are particularly relevant to this area of study, whilst best highlighting your skills and interests. Your selection of work should demonstrate your enthusiasm and ability in art and design, so that we can see who you are and what you do.

A variety of work. Please select a range of work which shows us who you are and what you are interested in, as well as showing a range of art and design skills. We'll be looking for a variety of creative work which may include design, photography, life drawing, mixed media work and digital work.

Your working process. We'd love to see evidence of your working process. The best way for you to showcase this is by including your two most relevant sketchbook excerpts and working drawings that relate to your portfolio projects.

3D work. If you have work that demonstrates 3D skills in props or model making etc. please include photos of this work in your portfolio.

A written piece. Please include a piece of writing in the form of an essay or report, completed as part of your studies for us to see your interest in the subject.
