

Digital portfolio advice

Digital Architecture and Construction MSc

Your digital portfolio is the perfect opportunity to showcase your work and interests.

For us to consider your application, you are required to submit a digital portfolio that demonstrates your passion and interest in digital architecture and construction.

What do you need to include in the portfolio?

The portfolio should contain between **5 – 10 examples** of your previous architectural or technological work and must be in a range of formats and media. More precisely, this may consist of:

- examples of 3D internal and/or external renders
- example of 2D drawings and/or rendered 2D drawings such as floor plans, sections, and elevation
- photographs of physical models that you have previously made
- any other work that demonstrates your interest in digital architecture and construction (e.g. technology-related work, 3D printed model, light/energy simulations, structural analysis, etc.).

You should accompany each example with a short description of the project, including when and why they were undertaken.

For those with a **non-cognate degree** but with an interest in digital architecture and construction, you are welcome to submit any relevant work that you have undertaken as part of your previous education, industry-related experience, or as an activity outside your formal educational background. This must be supported by a 300-word description of your interest in developing your educational or career pathway into Digital Architecture and Construction.

Please submit your digital portfolio as a Microsoft PowerPoint or PDF file. It should be:

- no more than 10 slides (if necessary, you could include more than one image of each piece of work, plus short descriptions)
- submitted as a single unzipped file not exceeding 10 mb.

Where images are inserted into a PowerPoint presentation, they must be:

- in JPEG format; and
- a maximum of 72 dpi (dots per inch).

Have any questions?

If you have any queries about your portfolio submission, contact us at www.ntu.ac.uk/askntu and someone from the team will get back to you. Alternatively, you can call our Admissions Office on **+44 (0)115 848 4200**.

What will happen next?

When we receive your application form and digital portfolio, they will be reviewed by the course admissions tutor. We will use it to look for evidence of intellectual engagement and digital/technical skills.

We aim to inform you of our decision within 20 working days of receiving your complete application pack.

An electronic copy of work submissions will be retained by NTU for the duration of the annual application cycle but will not be held on file for longer than this. Please therefore ensure that all files sent to us are copies.

NTU will not use any work submitted for any purposes other than the student application process.
