

# Global Summer School 2024

15 - 26 July

**Applications are open now!**

## Becoming an Entrepreneurial Citizen: Exploring Competencies for life & business- 10cps

### Content

We live in a fast-paced and changing world, where we need “enterprising citizens” who can act upon opportunities and ideas, manage dynamic careers, and shape the future for social, cultural, and economic good. Are you excited to master an entrepreneurial skill set that you can use in every aspect of your life? Do you want to benefit from skills that will increase your human capital, employability, and personal development? Or are you interested in developing your ability to discover and create business opportunities?

If you answered ‘yes’ to any of these questions, this course is for you.

### In this course you will:

- develop and increase your ‘enterprising citizen’ abilities to explore ideas and opportunities
- develop your self-efficacy, resilience, and resourcefulness, and how to set goals/take action in uncertain circumstances.

We will be aligning this course to the EntreComp: Entrepreneurship Competence Framework.

This course is ideal for enterprising students from all disciplines.

**After studying on this course, you should be able to:**

- Set challenging, ambitious, and realistic goals for yourself
- Increase your self-awareness, develop a growth mindset and resilience strategies
- Use tools to generate ideas, select opportunities, and creative problem-solving techniques
- Create compelling narratives to increase your ability to inspire, influence and persuade others
- Develop strategies to deal with uncertainty, change and taking calculated risks
- Work and cooperate with others to develop ideas and solve team conflicts.

I enjoyed the quality and expertise of the instructors the most in the course. They displayed a deep understanding of the subject matter and were always available for guidance and support, making complex concepts easy to grasp. They made the course engaging and insightful through their dynamic teaching styles, which enhanced my learning experience. **Micha Farber**

**Teaching** on this course will be delivered by lectures, seminars, workshops, case-studies, and group discussions. There will also be field trips into Nottingham and beyond!
