Europe: tuition fee loans

Tuition fee loans to study in UK

The UK government has agreed 2019 tuition fee loans for undergraduate and postgraduate study.

There are also some specific country funding schemes and opportunities available, please check on our website at www.ntu.ac.uk/eufunding for information on these.

If you have any questions about funding or your fee status please contact us at international@ntu.ac.uk and we'll be happy to advise.

Applying for a tuition fee loan

To apply for an undergraduate tuition fee loan, please visit www.gov.uk/student-finance.

To apply for a postgraduate tuition fee loan, please visit www.gov.uk/masters-loan.

The loan depends on such factors as where you live, your course, where you're studying and whether you've studied a higher education course before.

You can't apply for maintenance grants or other living expenses loans unless you satisfy the UK residency requirements. However, some help may be available from your home education authority so we advise you to approach them directly.

Scholarship award winner

Kirkke Eliise Põldsalu, Estonia

“Winning a European Scholarship was the confidence boost I needed before starting my university journey far away from home. I had doubts in myself but winning a scholarship proved that those thoughts were unnecessary and all my hard work had paid off.

Being one of the few recipients of the scholarship makes me value my place at NTU even more and has given me courage to get involved in university life more than I expected.”
