

### Forensics Module Guidance

- Forensics courses at Nottingham Trent University are only offered as full year exchanges, there is no semester exchange available.
- NTU students normally make a choice of modules with credits totalling 120 NTU (60 ECTS) credits per year, but you should check with your co-ordinator in your home university before leaving, as to what is specifically required of you.
- Students should be made aware that they are only able to choose modules from **one course and one level**. Due to strict timetabling restrictions we are not able to offer combinations of modules across different courses and years.
- If the content of your home course requires you to undertake a Level 6 module alongside Level 5 modules (or vice versa), we *may* be able to accommodate this request, but this cannot be guaranteed and a 'back up' Level 5 or 6 module should be chosen too.
- All modules are taught in English.

<b>Modules available to Forensic Exchange Students are listed below.</b>				
	<b>Subject / Module Code</b>	<b>Module Title</b>	<b>Level</b>	<b>Number of NTU Credits</b>
<b>CMSS040 Forensic Science – Level 5</b>				
	BIOL20231	Biological Techniques in Forensic Science	5	20
	CHEM20451	Forensic Analysis	5	20
	FORE20002	Crime Scene Investigation & Forensic Photography	5	20
	FORE20003	Ethics and Law for Forensics	5	20
	FORE20004	Forensic Casework Examination	5	20
Choose from one of the following three modules:				
OR	BIOL22321	Microbial Structure, ID. & Distribution	5	20
	FORE20001	Forensic Image Processing	5	20
	FORE20005	Introduction to Suspicious Death Investigation	5	20
<b>CMSS040 Forensic Science – Level 6</b>				
	BIOL30001	Research Project/Dissertation	6	40
	FORE30002	Molecular Techniques for Identification	6	20
	CHEM30331	Drugs of Abuse	6	20
Choose from one of the following three modules:				
OR	CHEM30391	Advanced Crime Scene Investigation	6	20
	BIOL33521	Forensic Microbiology	6	20
	BIOL33511	Environmental Forensic Assessment	6	20
Choose from one of the following three modules:				
OR	CELS30003	Communicating Science & Technology	6	20
	FORE30004	Ballistics & Firearms	6	20
	BIOL33501	Forensic Archaeology & Anthropology	6	20
