2. Information you may find useful

Most homestay hosts live outside of the city centre, this means that you may choose to travel into University using public transport. Most buses leave the city centre approximately every 10 minutes.

A lot of houses will only have one bathroom, meaning you will share with other members of the family. Your host will provide you with a clean room, bedding, and towels (which will be changed weekly).

Breakfast and a cooked evening meal will be provided every day – if you do not require a meal at any point during your stay then please inform your host prior to meal times. If you are planning to get home late in the evenings then please inform your host, as they may worry about your whereabouts.

Some electrical appliances which are bought from other countries may not work in the UK. An adaptor may be required.

Please remember that the weather in the UK is very changeable, as such we suggest that you remember to dress appropriately. It is recommended that you take an umbrella when out, especially in the winter.

The Homestay fee includes a fully furnished private bedroom, linens (bed sheets and towels), access to a shared bathroom, access to laundry facilities and kitchen facilities, utilities (e.g. water and electricity) and internet access. It also includes a daily, self-serve continental breakfast and evening meal.

3.5 How can I pay the Homestay fee?

You will need discuss with your host how you plan to pay your rent, and whether it will be weekly or monthly.

3.6 How are host families chosen?

Hosts are chosen for their warm hospitality, gracious homes, and close proximity to the NTU City site and Clifton campus. Each host must complete a registration form, and will be members of the NTU homestay, after being accredited by a visit from an NTU member of staff.

3.7 What are the benefits of Homestay?

A Homestay provides you with a home-away-from-home. Your Homestay host will help you to adjust and settle into a new environment with ease, support you throughout your stay and allow you to practise your English in an authentic environment. It is also possible to provide shorter contracts not always available in the commercial accommodation market.

4. Homestay student special requirements

4.1 Can I choose my own host family?

The NTU Homestay team will try to match you with a suitable host, based on your application form and preferences. We will try to ensure that we put you with the best possible host to suit your individual desires and needs.

4.2 Can I request to live in a non-smoking environment?

You can indicate on your application form whether or not you would be prepared to live with a smoker. We will try to take this request into account when matching students with families.

4.3 Can I request to live in a pet-free environment?

5. Homestay house facilities

5.1 What sort of family will I be living with?

Each host is different. Some Homestays include a husband, a wife, and children; some are single professionals; and some are retired couples. Each host brings their own unique approach to welcoming students into their home.

5.2 How close will I live to NTU campus?

Your host should live in close proximity to the NTU campus. The house will ideally be no more than a 20 minute walk or a 30 minute bus ride from the NTU City site or Clifton campus. We will try to take these considerations and preferences into account when matching you to a host.

5.3 What kind of house will I be living in?

Housing is available in the form of apartments, flats and houses.

5.4 What kind of bedroom will I be staying in?

You will be provided with your own private bedroom.

5.6 Will there be locks on the doors?

Most houses do not have locks on the internal doors. Many families feel these are dangerous in case of a fire or other emergency situation. The general rule, in most households, is that if a door is shut, you knock first to see if anyone is in there before entering.

5.7 What communal areas will I have access to?

The facilities in houses vary considerably. However, at the absolute minimum, you should be allowed access to the kitchen facilities, the laundry facilities and the bathroom

5.8 Will I have my own private bathroom?

If you do not have your own private bathroom, you will have access to a communal bathroom, which will include a toilet, a sink and either a shower or a bath. If you are sharing a bathroom, it is best to agree bathroom usage times in advance with your hosts. This way you can be sure to be on time for classes and other family members can get to work or school. Please be aware that most houses are equipped with water meters by their supplier which means all water is chargeable. Please be considerate to the host whilst running water unnecessarily i.e (washing up or brushing teeth, shower/bath) with wastage.

Reasonable showering times are expected on average 5 to 10 mins max twice a day, anything after that is considered excessive and may be of considerable excessive cost. Baths are available but please speak to your host re the amount of water you use to fill your bath as metered water is a considerable charge to the host.

Please discuss with your host what is their household usage of water, so you are all aware of expected usage.
