## English Garden Design - 10cps

Expand your horticultural expertise and knowledge at one of the most sustainable universities in the world!

### Content

On this course you will learn about:

- Design principles, history and the garden design process
- Sustainable plant and material selection
- Plant and soil science.

This innovative course includes a mix of lectures and practical workshops, along with day trips to prestigious UK gardens and nurseries.

During the course you will produce your own garden design to demonstrate what you have learnt, and by the end of the course you should have gained an insight into innovative and sustainable practices in the English garden design industry.

You will study at both our beautiful  
Brackenhurst Campus and our  
City Campus

The Tuition Fee for this  
course is £1510 - pay by 30  
April for a £100 discount!

NTU Global Summer School 2024  
Application Form
