Cybercrime and Cyber-Security - 10cps

Content

The use of computer technologies is essential for everyday life BUT just as computer technologies, devices and networking have expanded, cybercrime has too. With increasing activities on the Internet, cybercrime is becoming an important study area. This criminology course explores the history, nature, and patterns of cybercrime, introducing students to its criminological study.

In this course you will explore contemporary issues and academic debates such as:

- The theoretical cybercrime framework (e.g., definitions, victims, and offenders)
- The motivation behind cybercrime (e.g., financial, personal, and political)
- Cybercrime means and methods (e.g., malware, platforms, and pathways)
- Cybersecurity and policing virtual spaces and cybercrimes (e.g., digital forensics and biometrics)
- Cybercrime trends and future directions (e.g., surveillance and data trade, AI, robots, and drones).

You will look at a series of examples and case studies of Internet-related crime which will highlight the diversity of cybercrime as well as its prevention and detection.

After studying on this course, you should be able to:

- Evaluate the concept of cybercrime and its current and potential impact on globalised society
- Develop a critical awareness of the importance of how the online environment has changed the nature of victimisation, offending and policing.
- Critically interrogate sources of knowledge and information related to the constantly changing area of cybercrime
- Effectively communicate and objectively analyse sensitive ideas and concepts related to cybercrime cyber-security, from a criminological perspective.

NTU Global Summer School 2025 Application Form

The course is ideal for university-level students who have an interest in cybercrime and cyber-security and have the required English language skills.

Shanyce - I liked that the course was filled with very valuable insights of the unknown dangers of the internet, social media and Al.

Course Tutor Dr Tine Munk Senior Lecturer - Criminology and Criminal Justice
