10	Overview and aims

We live in a fast-paced and changing world, where we need "entrepreneurial citizens" who can act upon opportunities and ideas, manage dynamic careers and shape the future for social, cultural and economic good.

Are you excited to master an entrepreneurial skill set that you can use in every aspect of your life? Do you want to benefit from skills that will increase your human capital, employability and personal development? Or are you interested in developing your ability to discover and create business opportunities? If you answered 'yes' to any of these questions, this course is for you.

By undertaking this course, you will develop and increase your "entrepreneurial citizen" abilities to explore ideas and opportunities, develop your self-efficacy, resilience and resourcefulness, and how to set goals/take action in uncertain circumstances. This course will be of benefit/value to your personal development, the communities you live in and the organisations you want to work within or run.

We will be utilising/aligning this course to the EntreComp: Entrepreneurship Competence Framework.

11	Course content

Upon completion of this course, you will begin your "enterprising citizen" development by learning how to:

- Increase your self-awareness of your strengths and areas of development
- Describe the growth mindset and resilience strategies
- Use tools to generate ideas, creative problem-solving techniques and explore calculated risk-taking
- Create compelling narratives to increase your ability to inspire, influence and persuade others
- Reflect and learn from successes and failures for yourself and with peers
